

## Effective homework at The Bolsover School using Show My Homework

- **Show My Homework** is an online tool for students, parents and guardians that shows all the homework and deadlines that teachers have set.
- Effective setting, monitoring and completion of homework has been shown in educational studies to vastly improve the progress of students (Durham University, 2012).
- If any student is unable to access a computer or the internet, we are able to provide facilities in our homework club that runs after school from 3.00pm until 4.30pm Monday to Friday. For those students travelling by bus, we have a late bus facility to ensure safe transport home.
